

EXIT

Change is a Choice!

Purpose:

The purpose of the exit session is to obtain feedback from the client about the group experience; what topics were most helpful and what topics were least helpful. It is our endeavor to provide the best services to our clients and we obtain feedback from our clients to enhance and improve the VIP program constantly. The exit session also helps us assess how the client is applying the new tools provided to him in his present relationship, work and life in general.

Procedure:

The exit session is an individual session in which the counselor gets an opportunity to see the changes the client is making and how the client's behavior is impacting other people in his life. The counselor provides feedback to the client and supports positive changes. The session is also used to discuss how the client perceives accountability in a personal and social sense.

The exit session is documented and a certificate of completion is provided to the client and one is mailed to his/her referral source. The certificate of completion is not provided until all groups are completed, all fees are paid and an exit session is attended.

Fees:

The client is required to pay \$ 25 for the exit session.
